Certified Manager of Reporting Services (August 2009, Washington D.C.)

Statement

My career as a state of California Certified Shorthand Reporter in court reporting began in 1993 and is continually focused on developing, refining and mastering the intricacies and skill of the court reporting profession. In 1995 I founded a contracting and deposition reporting firm working in the private sector, as well as enjoyed contract assignments and/or employment with the California State and U.S. Courts for the Central District of California and Southern District of California.

In addition to court reporting, I am a certified mediator and arbitrator and managed 20+ employees in the aeronautics industry, which also involved working with the Federal Aviation Administration, developing and overseeing implementation of workplace policies and procedure, as well as tailoring and implementing the digital software for manufacturing OEM and aftermarket aviation workflow and production.
